

# DASHBOARDS & REPORTING

O2C PRO

# Webcollect

Webcollect's versatile reporting engine called Report Builder provides real time performance reporting delivering a global view that supports all credit, collection, dispute and cash management functions. The global view allows for robust process improvements, target realization and aged debt reduction thanks to constant results monitoring. Key metrics presentation is available through live dashboards.

## DASHBOARDS

- Configurable dashboards provide a command center approach to managing user activity and portfolio stability, making use of over 100 statistical indicators
- Real time performance metrics
- Provides drill down capability, enabling users to immediately access and analyze the underlying data
- Rollup by team, client, country or product line
- Multi-currency support for global projects
- Customer payment prediction
- Key financial indicators
- Manager's dashboard aggregates metrics for all team member
- Trending on all performance indicators

## REPORT BUILDER

- Webcollect's Report Builder is installed with a set of pre-configured reports that can be used out of the box
- Reports are easily modifiable
- New ad hoc reports are created with minimal technical skills (drag and drop interface)
- Report creation is available using any column from the database
- Reports can be designed in minutes using many popular data export formats (Excel, PDF, XML, CSV)
- Built in keywords and Excel formulas
- Detail and summary reports
- Real time report execution or schedule (daily, weekly, monthly, etc.)
- Role based access and execution
